

Walk 5

Glebe Way (Cottenham Road) /Buxhall farm loop

3.2 miles

Start on Glebe Way (the main road to Cottenham), opposite the old Cottenham Road. Head straight along the permissive path opposite the old Cottenham Road, keeping the hedge to your left.

You'll come to a bench, where the path veers sharp left. Follow the path, keeping the hedge to your left and the field to your right, until you come to a line of hedging running to the right. Turn right along the path on the far side of the hedging.

You now follow a circular route around the perimeter of arable fields, always keeping the arable field to your left and the hedging and/or ditch to your right. The path will take you down a slight incline, past a couple of barns and then a sign saying 'private roadway'. You'll approach an opening on to the Cottenham Road, where the path veers sharp left first alongside the road and then away from it. When the hedging ends on your right, you'll be walking between two fields in the direction of the line of hedging where you began the perimeter walk.

Turn sharp right as you reach the hedging, right again when you reach the bench, and head back towards Glebe Way.
